SANDAG

The 18 cities and county government are SANDAG serving as the forum for regional decision-making. SANDAG builds consensus; plans, engineers, and builds public transit; makes strategic plans; obtains and allocates resources; and provides information on a broad range of topics pertinent to the region's quality of life.

ARRESTS 2011: LAW ENFORCEMENT RESPONSE TO CRIME IN THE SAN DIEGO REGION

INTRODUCTION

The Criminal Justice Research Division of the San Diego Association of Governments (SANDAG) functions as the Clearinghouse for regional criminal justice information. On an annual basis, the Division prepares a report on local criminal justice agencies' response to crime in the region, as measured by arrest statistics. Such information provides an added dimension to our bi-annual reports on crime data for understanding the nature of crime and an additional measure that can be used in justice system planning.

This CJ Bulletin includes regional arrest rates per 1,000 adult and juvenile population, as well as numbers of arrests by offense type. In addition, 41 supplemental tables, which include statistics for individual jurisdictions, are presented. It should be noted that population estimates for 2002 through 2010 were revised with Census 2010 data by the California Department of Finance since the publication of last year's Arrest Bulletin. As a result, previous population estimates were lowered, which resulted in larger arrest rates in prior years than previously reported.

Some other points to remember when interpreting these numbers include the following:

- Similar to how the FBI counts reported crimes, the offense or charge attributed to an arrest may reflect only the most serious out of a number of violations included in the case.
- Arrests are documented by the location at which the arrest occurred and cannot be assumed to have any relationship to the location of the crime incident or the residence of the alleged offender.
- Arrest and crime rates and numbers should not be compared to one another. One reason is that the two events may occur in two entirely different periods of time, with an arrest made months or even years after the related crime was reported.

2011 ARRESTS BY THE NUMBERS

- **240**: Average number of adults arrested every day in the San Diego region, down from 268 in 2010.
- **81.2**: Arrest rate per 1,000 population for youth between the ages of 15 and 17 – the highest arrest rate of any age group.
- **1,295**: The average number of adults arrested each month for driving under the influence – the most common reason an adult in San Diego County is arrested.
- **59**: The average number of youth arrested for a status offense each week in the San Diego region. Status offenses represented the most common arrest type for youth in 2011 and over two-thirds (69%) of status offense arrests were for curfew violations.

OTHER 2011 ARREST TRENDS AND STATISTICS

- 2011 arrest rates were lower than those in 2010 for all age and ethnic groups, as well as both the felony and misdemeanor levels. With the recent increase in reported crime in 2012, it could be expected that this trend may change to some degree next year when more recent statistics are available.
- The largest one-year decrease in arrests (90% overall) reflects changes in state law through SB 1449 that reduced the charge for possession of up to one ounce of marijuana from a misdemeanor to an infraction. In 2010, 6,786 misdemeanor-level arrests for a marijuana offense were made; this dropped to 703 in 2011.

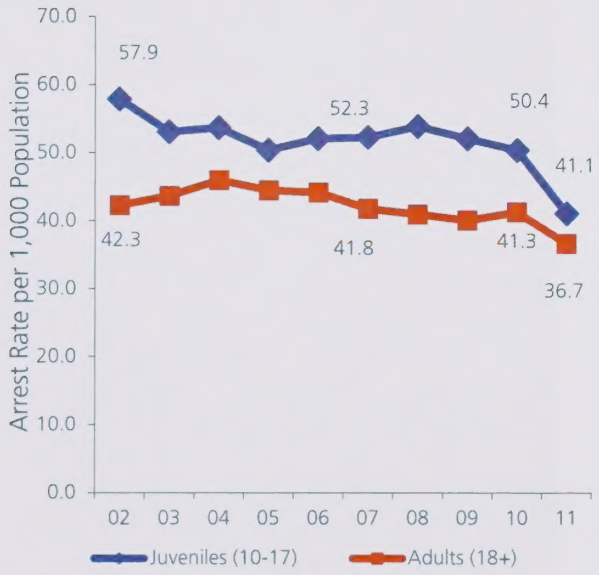
ARREST RATES

Trends

In 2011, there were 36.7 adults arrested per 1,000 population. As Figure 1 shows, this rate represented a decrease of eleven percent from 2010 and a new ten-year low. Across the jurisdictions, the adult arrest rate varied from 14.3 to 61.7 in 2011, with one-year decreases in 17 of the 19 jurisdictions (Table 6).

The arrest rate for juveniles has traditionally been higher than for adults and has decreased to a greater degree, overall, since 2002 (Figure 1). In 2011, the rate of 41.1 represented an 18 percent decrease from 2010 (when the rate was 50.4). Across the jurisdictions, the juvenile arrest rate varied from 13.1 to 64.5 in 2011, with 14 of the agencies reporting one-year decreases, 3 agencies one-year increases; and for 2 the number of arrests was too small to compare (Table 9).

Figure 1
2011 ADULT AND JUVENILE ARREST RATES AT NEW TEN-YEAR LOWS



SOURCES: California Department of Justice; SANDAG.

Felonies and Misdemeanors

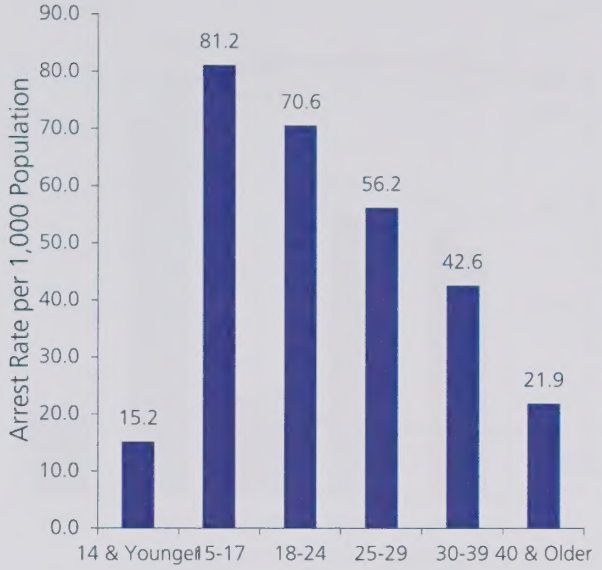
When examining arrest rates for adults and juveniles by the severity of the highest charge, the rates for both felonies and misdemeanors decreased for both groups over the past year, however the change was again considerably larger for juveniles than adults. Specifically, the felony arrest rate for adults dropped 8 percent and the misdemeanor rate decreased 12 percent. In comparison, the juvenile rates decreased 17 percent and 21 percent, respectively (Tables 7, 8, 10, and 11).

Arrestee Age and Race

As Figure 2 shows, the arrest rate by age group peaks for 15 to 17 year olds (81.2 per 1,000), and then declines, from 70.6 for those between the ages of 18 to 24 to 21.9 for those 40 years of age and older. Over the past year, the arrest rate decreased for all of the age groups, with decreases ranging from 8 percent to 27 percent (Table 2).

Arrest rates also varied by ethnic group for both adults and juveniles, with individuals of "other" ethnicities having the lowest rate (16.8 and 17.3, respectively), while Blacks had the highest rate (121.8 and 116.7, respectively). Over the past year, the arrest rate also dropped for each of the ethnic groups, with decreases ranging from 8 percent to 22 percent (Table 3).

Figure 2
ADULT ARREST RATES DECREASE WITH AGE



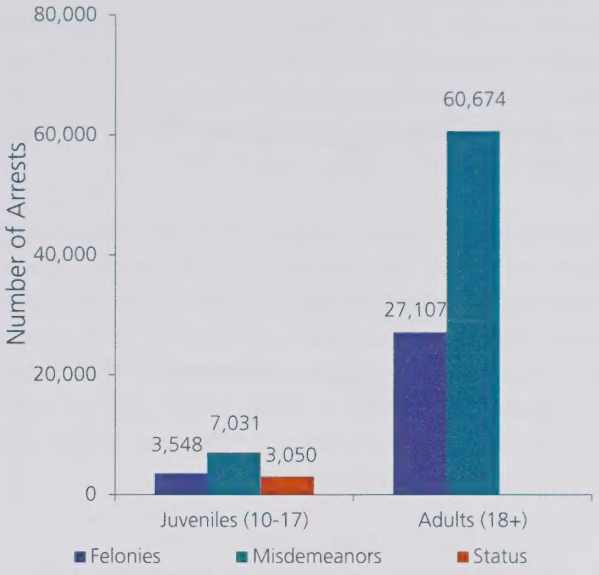
SOURCES: California Department of Justice; SANDAG.

NUMBER OF ADULT AND JUVENILE ARRESTS

Even though juveniles have historically had a higher arrest rate per 1,000 population compared to adults, it is important to note that many more adults are actually arrested. In 2011, there were 87,781 adult arrests and 13,629 juvenile arrests, with the majority of these at the misdemeanor level (Figure 3 and Tables 13 and 26). In other words, on average, there were around 240 adults and 37 juveniles arrested every day in 2011 in the San Diego region by local law enforcement agencies (not shown).

How Many Arrests Were Made Per Day, on Average, in 2011?		
	Of Adults...	Of Juveniles...
For Which Crime?		
Violent	38	5
Property	26	7
Alcohol/Drug	116	6
Weapons	4	1
Other	56	10
Status	N/A	8

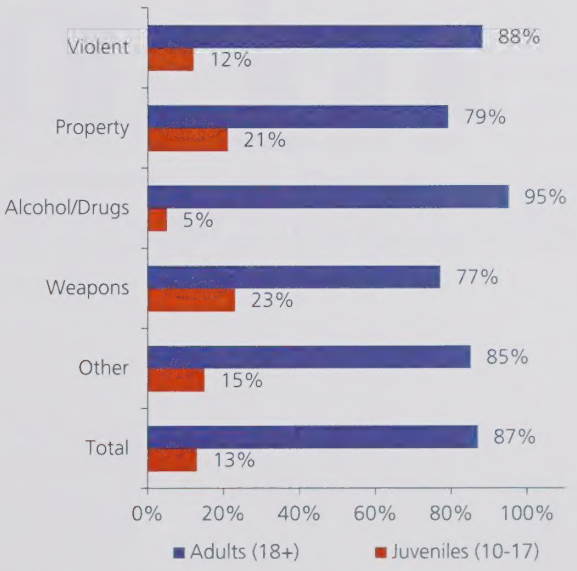
Figure 3
MOST ARRESTS IN 2011 WERE ADULTS FOR MISDEMEANOR OFFENSES



SOURCES: California Department of Justice; SANDAG.

As Figure 4 shows, while 13 percent of all individuals arrested in 2011 were juveniles, there was variation by crime type, with juveniles representing a greater proportion of arrests for weapons (23%) and property (21%) offenses, and less likely to be arrested for alcohol- and other drug-related offenses (5%).

Figure 4
JUVENILES REPRESENT HIGHER PROPORTION OF ARRESTS FOR WEAPONS AND PROPERTY OFFENSES



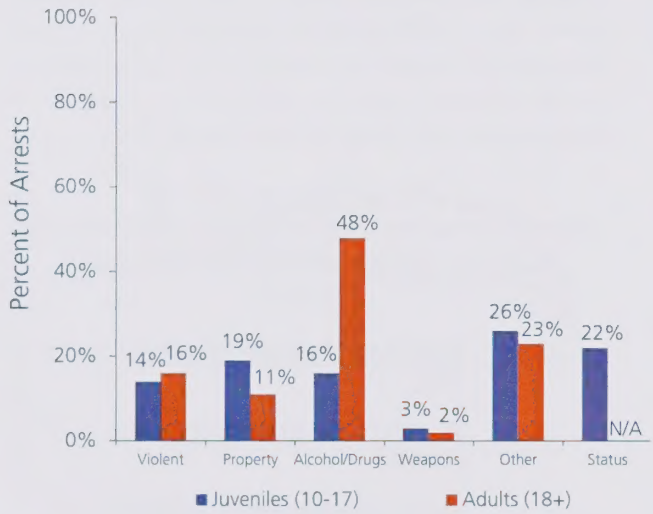
SOURCES: California Department of Justice; SANDAG.

ARRESTS BY OFFENSE TYPE

What types of crimes are adults and juveniles arrested for? As Figure 5 shows, around half (48%) of adult arrests were for alcohol- or other drug-related violations. In comparison, the distribution across crime type varied more for juveniles, with the most common being other offenses (26%) and status offenses (22%).

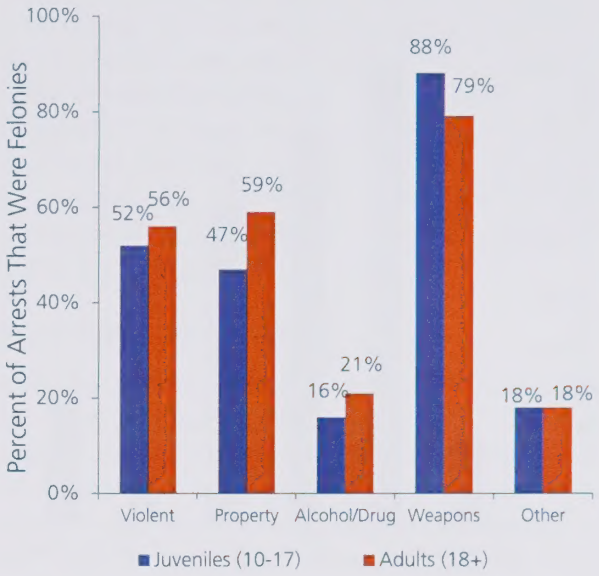
There was also variation across the arrest categories in terms of what percent represented felony- versus misdemeanor-level offenses. As Figure 6 shows, while more than three-fourths of juvenile and adult arrests for weapons offenses were at the felony level (88% and 79%, respectively), a much smaller percent were felonies in the alcohol/drug (16% and 21%) and "other" offense categories (18% each).

Figure 5
ADULTS MORE LIKELY TO BE ARRESTED FOR ALCOHOL- AND OTHER DRUG-RELATED OFFENSES



SOURCES: California Department of Justice; SANDAG.

Figure 6
PERCENT OF ARRESTS AT THE FELONY LEVEL VARIES BY OFFENSE TYPE



SOURCES: California Department of Justice; SANDAG.

Violent Offenses

The violent offense arrest category includes four felony-level offenses (homicide, rape, robbery, and aggravated assault) and two misdemeanor-level offenses (manslaughter and assault/battery). There were 13,793 adult and 1,935 juvenile arrests for violent offenses in 2011 (Figure 7). Arrests for a violent offense declined for both adults and juveniles over the past year, but to a lesser degree for adults (3%) (Table 20) than juveniles (10%) (Table 33).

Figure 7
ARRESTS FOR VIOLENT OFFENSES DOWN FOR ADULTS AND JUVENILES

SOURCES: California Department of Justice; SANDAG.

For adults, there were one-year increases in the number of arrests for homicide (6%) and rape (2%), but decreases in the number of arrests for robbery, aggravated assault, and misdemeanor assault and battery (-6%, -6%, and -<1%, respectively) (Table 21). For juveniles, there were one-year decreases in the number of arrests for robberies, aggravated assaults, and misdemeanor assault and battery that ranged from 4 percent to 12 percent (Table 34).

Property Offenses

Property offenses include felony-level burglary, larceny, and motor vehicle theft, and misdemeanor-level petty theft and burglary. In 2011, there were 9,581 adults arrested for a property offense, which represented a one percent decrease from 2010 (following a small increase from 2009 to 2010) (Figure 8 and Table 20). For juveniles there was a 16 percent decrease from 3,022 in 2010 to 2,536 in 2011 (Table 33).

Figure 8
FEWER ADULT AND JUVENILE ARRESTS FOR PROPERTY OFFENSES IN 2011

SOURCES: California Department of Justice; SANDAG.

Across the property categories, there were fewer adult arrests for felony-level larceny (32%) and motor vehicle theft (12%) in 2011, compared to 2010. However, there were more arrests for felony-level burglary (2%) and misdemeanor petty theft/burglary (21%) (Table 22). For juveniles, there were one-year decreases in each of the four categories, ranging from 8 percent to 35 percent (Table 35).

Alcohol- and Other Drug-Related Offenses

In 2011, there were 42,479 adult and 2,115 juvenile arrests for alcohol- and other drug-related offenses (Figure 9). For both adults and juveniles, these one-year decreases of 17 percent and 30 percent, respectively, represented the largest one-year declines among the five arrest type categories (Tables 20 and 33).

Figure 9
ADULT AND JUVENILE ARRESTS FOR ALCOHOL- AND OTHER DRUG-RELATED OFFENSES DECREASED OVER PAST YEAR

SOURCES: California Department of Justice; SANDAG.

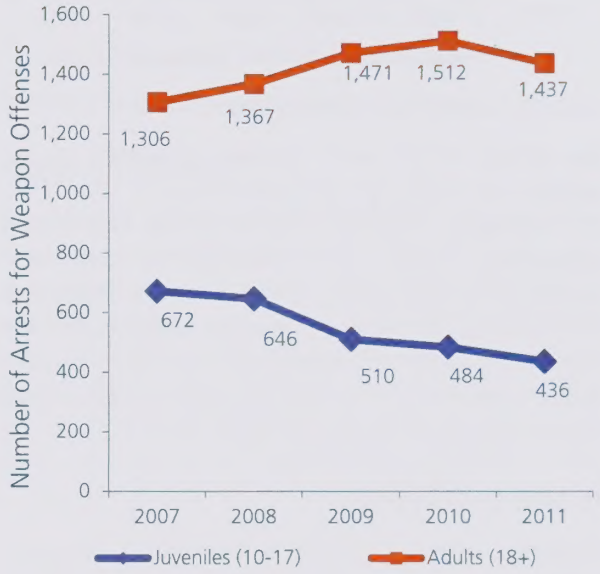
Within the alcohol- and drug-related offense category are five felony and five misdemeanor categories. For adults, there were decreases in eight of these ten categories, with the greatest one-year decline (98%) in the number of misdemeanor arrests for marijuana, which reflects changes in state law (that went into effect on January 1, 2011) through SB 1449 that reduced the charge for possession of up to one ounce of marijuana from a misdemeanor to an infraction (Table 23). For juveniles, there were decreases in six of the eight alcohol- and drug-related charges, with decreases ranging from 9 percent for misdemeanor other drug-related offenses to 57 percent for misdemeanor marijuana offenses. The two categories with increases were related to alcohol (drunk, 6% and liquor laws, 18%) (Table 36).

Weapons Offenses

There were 1,437 adult arrests and 436 juvenile arrests for weapons violations in 2011 (Figure 10). For adults, 2011 represented a five percent decrease from 2010, and for juveniles, the one-year decrease was ten percent (Tables 20 and 33).

For adults, arrests for both felony- and misdemeanor-level weapons offenses were down (2% and 14%, respectively) (Table 24). For juveniles, while felony-level offenses were down 14 percent, misdemeanor offenses increased 35 percent, from 40 to 54 (Table 37).

Figure 10
ARRESTS FOR WEAPONS OFFENSES DOWN FOR ADULTS AND JUVENILES

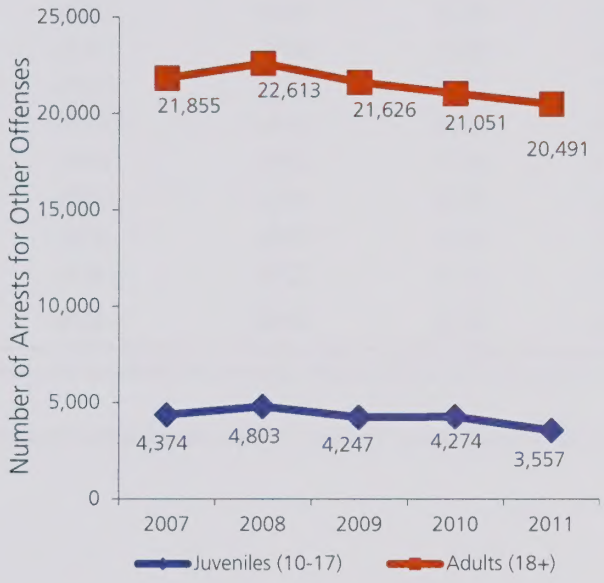


SOURCES: California Department of Justice; SANDAG.

Other Offenses

There were 20,491 adult arrests and 3,557 juvenile arrests for "other" offenses in 2011 (Figure 11). At the felony level, "other" charges include sex-related offenses, forgery, and arson, as well as other felonies (such as kidnapping). At the misdemeanor level, offense types include other theft-related charges, sex-related and prostitution, disturbing the peace, vandalism/graffiti, hit-and-run, selected traffic offenses, violations of city/county ordinances, failure to appear in court offenses, and other charges such as contributing to the delinquency of a minor. Over the past year, there was a 3 percent drop for adults and 17 percent decrease for juveniles (Tables 20 and 33).

Figure 11
NUMBER OF ARRESTS FOR OTHER OFFENSES DOWN FOR ADULTS AND JUVENILES



SOURCES: California Department of Justice; SANDAG.

For adults, there were one-year decreases in 11 of the 14 felony- and misdemeanor-level "other" crime categories, ranging from <1 percent (disturbing the peace) to 40 percent (prostitution). The increases, which ranged from 2 percent to 22 percent, included hit and run, city/county ordinances, and vandalism/graffiti (Table 25). For juveniles, six of the seven categories with more than 30 arrests declined over the past year, with the exception of felony sex-related arrests that increased 21 percent from 66 in 2010 to 80 in 2011 (Table 38).

Status Offenses

There were 3,050 status offense arrests in 2011, the second consecutive decrease (Figure 12). This overall decline was driven by fewer arrests for truancy (down 51% from 2010), while the number of arrests for runaway behavior and curfew violations were up slightly (1% and 2%, respectively) (Table 39).

Figure 12
NUMBER OF STATUS OFFENSE ARRESTS DECREASED IN 2011

SOURCES: California Department of Justice; SANDAG.

SUMMARY

The current CJ Bulletin describes what types of arrests were made in the San Diego region in 2011 by local law enforcement agencies of both adults and juveniles. The arrest rates for adults and juveniles were both down in 2011, with more than half of the drop related to changes in the law related to the possession of smaller amounts of marijuana. While the juvenile arrest rate has traditionally been higher than the adult rate, the difference has declined over time and it is important to note that in terms of numbers, many more adults than juveniles are actually arrested each year (87% of all arrests). About one in every two adult arrests is for an alcohol- or drug-related offense, while juveniles show greater variation in the offense type leading to their justice system contact. Some notable changes over the past year in arrest rates included drops in almost each category with the exception of misdemeanor petty theft/burglary and vandalism/graffiti for adults and misdemeanor alcohol law violations for juveniles.
